

Foster or Adopt a Child, Change a Life

Make a lifetime of difference for a child by welcoming them into your safe and loving home.

The children who need you come from many different backgrounds, so we need foster and adoptive parents just as diverse as they are. Foster and adoptive parents can provide safe refuge for a child for as little as a day, a month or a year or a forever home for a lifetime. From teens to toddlers to infants, each and every child is unique, but they share one thing in common: they all need love.

The love you share as a foster or adoptive parent can help children grow to reach their potential, help to reunite foster children with biological families and make your family and your community stronger.

Our children are waiting, all we need is YOU!

For more information about foster parenting or adoption, contact the Thibodaux Region Home Development Unit at 985-449-5055 or 1-800-748-7755 or visit www.dcfsls.gov
